

Because of SISKIN HOSPITAL...

I can *cheer* them on.

Severe chest pains at 4 a.m. sent Bill and Lisa Anderson rushing to the hospital. Doctors quickly learned that Bill had suffered an aortic aneurysm and needed emergency surgery to save his life. But that was just the beginning of the long and terrifying journey for Bill and his family. The severity of the surgery and complications that followed kept Bill in intensive care for seven weeks.

When it came time for rehabilitation, there was only one choice for the Anderson family—Siskin Hospital for Physical Rehabilitation, where nurses, therapists and doctors worked with Bill every step of the way to regain the abilities he had lost. Throughout his rehabilitation, Bill's number one goal for his therapy was to be strong enough to be standing on the sidelines cheering for his son Will at the first lacrosse game of his senior season. He also wanted to be there for his daughter Alison's all-state track meets.

The Anderson family credits Dr. Rob Headrick and the team at Memorial Hospital for saving Bill's life and the team at Siskin Hospital for helping him resume his spot as Will and Alison's biggest and loudest fan.

Because of Siskin Hospital, I CAN.

Siskin Hospital provides outstanding therapy care in Chattanooga. The experienced and dedicated staff at Siskin Hospital will guide patients with the most innovative and successful rehabilitation programs, services and equipment in the Chattanooga area. Designed to fit individual needs and provide continuity of care, Siskin Hospital's Inpatient, Outpatient and SubAcute Programs provide seamless care to promote health and independence.
